PROFESSIONAL EXPERIENCE

Technical Content Producer | Pluralsight *Remote | May 2025 – Present*

- Contribute to the publication of 90+ courses across software development, IT, AI, and cloud by reviewing technical content and coordinating with authors and stakeholders.
- Test guided and challenge-based labs, validate assertions, reproduce errors, and troubleshoot learner support tickets; verify updates in the lab platform.
- Edit Markdown instructions, lab configurations, and AWS CloudFormation templates; check technical accuracy and align content with internal standards and the Google Developer Documentation Style Guide.
- Use learner feedback and performance metrics to prioritize revisions; deliver actionable author feedback and coordinate reviews, approvals, deadlines, and ongoing content maintenance.
- Led a unified onboarding templates project and drafted supporting documentation; maintain process guidance and onboard authors through scheduled meetings and recorded walkthroughs.

Technical Writer | Freelance *Remote | Dec 2024 – May 2025*

- Developed and maintained technical documentation, user guides, and standard operating procedures to improve process consistency and usability.
- Collaborated with internal teams, product managers, and subject matter experts to review technical accuracy and maintain consistency across documentation.
- Organize and maintain content using Confluence, GitBook, GitHub, Postman, Notion, and Google Suite.

Technical Account Manager | Proxify *Remote | Oct 2024 – Dec 2024*

- Managed a pipeline of 50+ inbound opportunities, identifying client needs and matching them with developers and technologies suited to project requirements.
- Coordinated client and technical stakeholder conversations to align resource recommendations with delivery needs.

Solution Engineer / Technical Account Manager / Instructional Designer | Whatfix *Remote | Jun 2023 – Oct 2024*

- Led implementations for 30+ enterprise customers across Salesforce, Duck Creek, Guidewire, Workday, and NetDocuments, supporting operational workflows and digital adoption.
- Implemented and tested 50+ technical customizations using JavaScript and APIs; validated integrations with Postman and IDEs, helping reduce post-implementation issues.
- Documented 30+ customer use cases, including requirements and implemented solutions, to support knowledge sharing and team consistency.
- Delivered product enablement and resolved technical inquiries for 10+ enterprise clients in banking, financial services, and insurance.
- Partnered with instructional designers and customers to develop targeted onboarding content and interactive step-by-step guides, transitioning from traditional virtual training to guided digital learning.

Solution Consultant | Kinaxis *Remote | Feb 2022 – Feb 2023*

- Configured, tested, and deployed user stories supporting a $35M supply-chain network, helping streamline implementation and day-to-day processes.
- Trained 50+ clients on the Kinaxis RapidResponse platform, earning 100% satisfaction based on customer feedback.

Digital Learning Consultant | Kinaxis *Remote | Apr 2021 – Jan 2022*

- Worked with hundreds of customers to understand learning goals and develop learning solutions aligned with industry needs.
